HIGH QUALITY PRODUCTS

Our company's main objective is to offer services and products of the highest quality at competitive prices. According to our customers, quality and accuracy are our main characteristics. In order to support our Quality Policy, we have implemented and applied a Quality System that supports our productive activities since the year 2000.

In addition to that, all our products bear the EU "CE mark" that is required by the EU Regulation 305/2011 for the legal movement and trade of products within the EU and certifies their appropriateness for use by the end user - consumer.

General Notes:

- Karystos Stones are natural slates, therefore; any difference between pictures, stone samples, previous price lists, CDs, web site, and the real product, should be understood by customers. These differences are inevitable, but in any case, if the buyer wants to reconcile his expectations at a sample stage as to the practical limits of uniformity, be sure we shall provide as much detail as we can in order to satisfy the customer to balance his design criteria.
 - Packages adapted according to the content.
